EDUCATION

Université du Québec à Montréal	2020–2027 (<i>expected</i>)
Ph.D. in Economics	
Université de Montréal	2018–2019
M.Sc. in Economics	
Université de Montréal	2013–2017
B.Sc. in Economics and Mathematics	

ACADEMIC VISITS

Toulouse School of Economics	Fall 2026
Cornell University	2024–2025
Faculty sponsor Mathieu Taschereau-Dumouchel	

RESEARCH

Primary Fields:	Macroeconomics, Information Economics
Secondary Field(s):	Macroeconometrics

Job Market Paper

Macroeconomic Shocks and their Propagation under Rational Inattention

Abstract. I build and estimate a medium-scale DSGE model with rational inattention, matching the empirical impulse responses to a monetary policy shock with quasi-Bayesian methods. I show that inattention can account for most of the inertial behavior of macro time series *if* paired with a real friction affecting capital accumulation. The RI-DSGE implies similar propagation as a prototypical NK-DSGE for the main business cycle shocks, and matches firm-level evidence on investment and pricing response to idiosyncratic productivity shocks.

Working Papers

Noisy Expectations & Business Cycles

with Patrick Fève & Alain Guay

Inflation, Attention & Expectations

with Dalibor Stevanovic & Massimiliano Marcellino

Selected Work in Progress

Monetary Policy with Inattentive Heterogenous Households

previously: Rationally Inattentive Heterogeneous Agents

Solving Dynamic Models with Rational Inattention

Learning under Constraint

Non-Parametric Expectations in Heterogeneous Agents Models

with Pavel Sevcik

TEACHING

Concordia University

Computational Economics, graduate course, (2026)

Université du Québec à Montréal (Teacher Assistant)

Advanced macroeconomics I, graduate course, (2024)

Advanced macroeconomics II, graduate course, (2023)

Methods of dynamic programming, graduate course, (2021)

Business cycles and economic policies, graduate course, (2021–2024)

Macroeconometrics, graduate course, (2021–2024)

PRESENTATIONS

2026 (including scheduled): Banco Central do Brasil Annual Conference · Theories and Methods in Macroeconomics · Behavioral Macroeconomics Workshop · Midwest Macroeconomics Meetings Falls.

2025: Bank of Canada Montreal Workshop · Barcelona School of Economics Summer Forum Monetary Policy Workshop · CERGE-EI · Behavioral Macroeconomics Workshop · Bank of Canada Graduate Student Paper Award

2024: Macro Lunch Cornell · Annual Canadian Economics Association Meetings · Annual Congress of the Canadian Economic Society

2023: Annual Congress of the Canadian Economic Society

SCHOLARSHIPS & AWARDS

Finalist Bank of Canada's Best Graduate Paper Award	2025
Social Sciences and Humanities Research Council Doctoral Fellowship	2022–2025
Excellence PhD scholarship, UQAM Econ. Department	2020–2022
